PL Series Fertiliser Spreader

The COSMO PL Series Fertiliser Spreaders offer a simple and effective solution to spreading pilled, granular or powdered fertiliser and seed, accurately from 6 to 14m.

The heavy-duty PVC hopper is UV stabilised, will not rust, is less likely to suffer from dints and scratches and is durable. The smooth interior finish of the hopper ensures fertiliser slides down the hopper evenly to the exits.

The twin lateral (side) exits provide the operator with left, right or full coverage spreading and also ensures uniformed spreading as the material drops straight onto the stainless steel six vane spinner disc.

Code	CPL400	CPL500
Size reference	400ltr PVC Hopper	500ltr PVC Hopper
Capacity (lt/kg)	350 / 349	450 / 449
Spreading width (m)	6 - 14	
Dimensions		
Width (mm)	1080	1110
Depth (mm)	1080	1110
Height (mm)	1120	1170
Tractor range (hp)	30+	35+
Weight (kg)	60	63

Options
